

# AF56

FRONT-LOADING DISHWASHER - TOTAL POWER 3,5 KW

## PRODUCT DESCRIPTION

### ECO FRIENDLY: -40% OF WATER

Stainless steel structure and tank AISI 304. Wide double-skinned balanced door.

**Wash tank with rounded edges**, thus ensuring the complete drainage of dirty water.

Upper and lower coplanar wash and rinse arms.

**Surface filters** covering the whole tank.

Stainless steel heating elements, resistant to corrosion and limescale.

**Standard equipped** with built-in rinse aid dispenser for the best drying results.

**Standard equipped** with built-in connection for detergent dispenser.

**Standard equipped** with connection for drain pump.

Wide range of options available **on demand**.

**Standard equipped** with a basket for plates and a basket for cups.

The "technological core" of model AF56 is represented by its **double water filtration system**, which helps you to keep water cleaner. 40% less water in comparison with the model B31 is needed in the washing tank for remarkable energy and detergent savings.

Rounded washing tank edges prevent dirt from being stuck in corners. You will experience quicker cleaning operations and a better smelling dishwasher.

Only 2,5 lt of water required for each washing cycle for best-in-class energy savings.
